Sunshine Coast Water Life
Where the sun meets the water

**Sunshine Coast**
Queensland Naturally refreshing

For more information go to
visitsunshinecoast.com.au/waterlife

The Sunshine Coast boasts over 100 kilometres of world class beaches, with rivers winding their way down from the rain forested hinterland into streams, canals and lakes. With so many experiences to try you could not pick a more natural or refreshing destination to enjoy the water. It's no wonder the Sunshine Coast is where the sun meets the water.

Welcome to Queensland's Sunshine Coast

Boathire, Houseboat & Jetski

There are an abundance of boat tours and hire locations just waiting for your arrival. So whether you are

after a fast paced ride carving through our waterways, fish-tailing on a jetski, or hiring a boat for a quiet cruise

or houseboat celebration, you've come to the right place.

Surf School

One of the most popular water sports on the coast is of course surfing and for those who are just learning to surf,

or a more experienced surfer looking to refine your skills, there are surf schools located across the coast. With a range of surf beaches to suit all abilities and 11 different surf schools to choose from the Sunshine Coast is perfect to hang ten.

Diving

The Sunshine Coast boasts one of the best dive wrecks in the southern hemisphere, the ex-HMAS Brisbane is a must do for any beginner or experienced diver. The artificial reef and sea life combined with the hatchways, bulkheads and gun

barrels to explore guarantees to keep you coming back time and time again.

Cruises, Gondolas & Jet Boating

With over 100kms of coastline, river ways and everglades teaming with wildlife and flora, taking a cruise or gondola is one of the most spectacular and peaceful experiences on the

coast. If adrenaline is more your style try one of the jet boating rides and experience what 500 horsepower feels like on the water.

Fishing

Still one of Australia's favourite pastimes, fishing remains one of the most popular activities on the Sunshine Coast. Streams,

lakes, rivers, canals and the deep ocean offer a variety of fishing options. So whether you are on a fishing charter with family or friends, or simply want to quietly cast alone, you will find a natural fishing paradise right here.

Kite Surfing & Wake Boarding

Wakeboarding has never been easier than here on the Sunshine Coast. The Suncoast Cable Watersport Park not only instructs and challenges all abilities of boarders but also hosts international competitions for the whole family

to watch and enjoy. If the wind is up, why not try your hand at kite surfing and find out why people travel from around the planet to kite surf here.

Kayaking, Canoeing & Stand-up Paddle

It could be for fitness, fun or simply to try something new but cruising the waterways under your own power is a relaxing and exhilarating experience all tied into one. Whether you are in a kayak, canoe or on a stand up paddle (SUP) board the scenery is simply breathtaking.

Sailing

Hosting huge international sailing competitions such as Sail Mooloolaba and the Musto Etchells Australasian Championships you can enjoy the spectacle of watching the world's best or try your hand at learning to sail yourself. Either way you'll discover why sailing is a way of life on the Sunshine Coast.
